The screenshot shows a Windows desktop environment with a travel management application running. The application has a red header bar with a yellow star icon and the text "DashBoard". On the left is a vertical menu bar with items like "Add Personal Details", "Update Personal Details", "View Details", etc. The main area features a large image of a tropical beach at sunset. A modal window titled "About Project" is open in the center, containing text about the project's objective and advantages. The taskbar at the bottom shows various pinned icons and system status.

Travel and Tourism Management System

About Project

About Projects

The objective of the Travel and Tourism Management System project is to develop a system that automates the processes and activities of a travel and the purpose is to design a system using which one can perform all operations related to traveling.

This application will help in accessing the information related to the travel to the particular destination with great ease. The users can track the information related to their tours with great ease through this application. The travel agency information can also be obtained through this application.

Advantages of Project:
